In re Application of	:	OFFICE OF PETITIONS
Britten, et al.	:	
Application No. 10/687,986	:	ON REQUEST FOR
Filed: October 17, 2003	:	RECONSIDERATION OF
Attorney Docket Number: PC27098	:	PATENT TERM ADJUSTMENT

This is a decision on the petition under 37 CFR 1.705(b), filed July 12, 2010. Applicants believe that they should be accorded an additional PTA of 596 days. Applicants request this correction in part on the basis that the Office will take in excess of three years to issue this patent.

Insofar as the instant application for patent term adjustment requests reconsideration of the patent term adjustment solely as it relates to the Office's failure to issue the patent within 3 years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE.**

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As such, the Office can not make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file a request for reconsideration of patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a

request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicant must timely file an application for patent term adjustment prior to the payment of the issue fee<sup>1</sup>.

Applicants point out that they should have been assessed additional delay for the abandonment of the application pursuant to 37 CFR 1.704(c)(3). The Office mailed a Restriction Requirement, setting a 30 day period for reply, on February 7, 2006. No reply having been timely received, the application became abandoned on March 10, 2006. Applicants filed a grantable petition to revive on August 17, 2006. Therefore, pursuant to 37 CFR 1.704(c)(3), 283 days of applicant delay should have been assessed (March 10, 2006 – December 17, 2006).

In addition, a review of the file reveals that Applicants should have been assessed additional delay pursuant to 37 CFR 1.704(b). As the Restriction Requirement was mailed on February 7, 2006, and Applicants did not file a reply until August 17, 2006, 102 days of delay should have been assessed under 37 CFR 1.704(b).

In view thereof, the correct determination of PTA prior to issuance is **two hundred twenty-six (226) days** (714 (417+297) days of PTO delay, reduced by 488 (102+283+33)days of Applicant delay).

The application is being forwarded to the Office of Data Management for issuance of the patent.

Telephone inquiries specific to this decision should be directed to Petitions Attorney Cliff Congo at (571) 272-3207.

<sup>1</sup> For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the §1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.
